SUMMARY

Software professional with 2.7+ years of experience in automation engineering and software development environments, with hands-on experience in JavaScript, Node.js, web applications, SQL/MySQL, REST APIs, and automation. Experienced in building automation solutions, working with web-based applications, integrating APIs, managing databases, and streamlining repetitive development workflows. Familiar with OOP concepts, Next.js, Docker, Git, and AI-powered automation tools.

EDUCATION

CSJM University, Kanpur, Uttar Pradesh
Master of Computer Applications (MCA), 74.34% *July 2023*

EXPERIENCE

Software Development Engineer in Test (SDET) Dec 2023 – Present
Webkul Software Pvt. Ltd. *Noida, Uttar Pradesh*

- 2.7+ years of experience working across web applications, e-commerce platforms, real-time systems, and AI-powered solutions.
- Developed automation solutions using JavaScript, Playwright, API Testing, Postman, SQL/MySQL, and REST APIs.
- Worked with Node.js, HTML, CSS, OOP concepts, Git, GitHub, Docker, and AI-powered CLI tools across development and automation workflows.
- Collaborated with development teams on requirements, application workflows, database operations, troubleshooting, and software delivery.

PROJECTS

Real-Time Chat System | JavaScript, Node.js, HTML, CSS, GitHub, Vercel

- Developed a real-time chat application using JavaScript and Node.js with a web-based interface.
- Managed source code through GitHub and deployed the application using Vercel.

E-Commerce Automation — Magento 2 | Magento 2, CLI Automation

- Automated repetitive Magento 2 development and operational workflows using CLI-based automation tools.
- Streamlined recurring tasks to reduce manual effort and improve development efficiency.

AI-Powered Tools & Chatbots | AI Tools, WhatsApp AI Bots, Headless Next.js

- Worked on company projects involving AI-powered tools and WhatsApp AI bots for automated workflows and user interactions.
- Worked with headless Next.js applications and automation workflows for web-based solutions.

TECHNICAL SKILLS

Programming: JavaScript, C++
Web & Backend: HTML, CSS, Node.js, Next.js
Software Engineering: REST APIs, JSON, OOP Concepts
SDET & Automation: Playwright, API Testing, Postman, AI-Powered Automation (CLI Tools)
Database: SQL, MySQL
Tools: Git, GitHub, Docker
